

Bring us your firsts, your seconds,
your subprimes, scratched and
dented, your
borrowing
masses,
yearning to
be current.

We're Franklin Credit and We Can Sub-service
All of the Above. And More.

Franklin Credit Management Corporation has one of the strongest servicing and subservicing platforms around. What would you expect from a company that's been specializing in hard-to-service subprime and scratch and dent loans for 20 years?

We're fierce champions of responsive customer service, whether the "customer" is a client with a portfolio of mortgage loans or a mortgagor making monthly payments in order to live the American dream.

We're firm believers in *early, close and frequent* borrower contact. We've committed our professionals to one-call resolution, training them to assist borrowers with everything from escrow inquiries and payoff requests to settlements and loss mitigation options. As for default management, we have all the tools—high-touch collections, door knocks, bankruptcy, foreclosure, real estate-owned, recovery—required to ensure your assets remain as productive and protected as possible.

If you're responsible for the performance of a portfolio of mortgage loans, let our experienced professionals assume the operational risks by servicing or sub-servicing *your* borrowing masses. You'll see we're not headquartered on the Hudson River, in the shadow of the Great Lady and all her crowning glory, for nothing. Let financial freedom ring by ringing our phone. Call Franklin Credit Management Corporation at

800-XXX-XXXX.
